适用于最大门扇度为 1100mm 的单向开启门。

精密进口密封圈，防止漏油。

优质压铸铝合金机体，以二层光亮漆保护。

两个液压阀立控制两段闭门速度，作 180 度全液压控制。

二段速度调节，可定制 90-160 度任意定位功能。

既可按常规方式安装在门板上，也可安装在门框上。

标准颜色：金色、银色、古铜色可根据客户要求定做颜色。

Apply to the maximum door fan degree 1100mm of one-way opening door.

Precision inlet sealing ring to prevent oil leakage.

High quality die-casting aluminum alloy body, with the second layer bright paint protection.

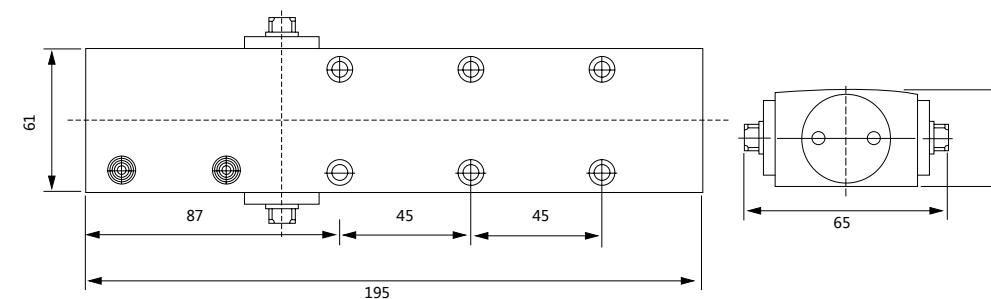

The two hydraulic valves control the closed speed of the two sections, and the total hydraulic control is 180 degrees.

The two speed adjustment can be customized to 90-160 degree arbitrary positioning function.

It can be installed on the door panel as usual, or it can be installed on the door frame.

Standard color: gold, silver and bronze can be customized according to customer's requirements.
